**History of the “Band Festival at the Kalahari”**

The festival began with a desire to create a quality music experience for young band musicians that was both informative and fun. It was apparent that a festival was needed that would allow students to strive toward a goal of performing in a concert setting for an audience of peers, family members and master adjudicators for this age level. The festival captures the “teachable moment” by providing a clinic experience for the band immediately following the performance involving musical performance as well as discussion. Each band receives feedback from three adjudicators in the form of a clinic, written comments and an audio recording with verbal comments. Along with creating an opportunity for students to hear other band programs and concert literature, the festival offers students the chance to socialize, eat pizza and enjoy the waterpark and/or indoor theme park and other attractions at the Kalahari.

The festival began in May of 2008 with eight bands participating in a one day festival. In 2009, the festival became a two day event with twenty-one participating bands. In 2010 and 2011 the festival grew to twenty-nine bands. Pictures of the bands were displayed on large screens in the performance hall and live-streaming of the concerts was added. A choice of Waterpark or Indoor Theme park passes was offered to participants. The 2012 Band Festival had thirty-seven participating bands. “Band Festival at the Kalahari” t-shirts were added as well as a “Band Festival” program created and sponsored by Ward Brodt Music in Madison. The program contains information about each participating band and its members. In 2013 the festival added a percussion clinician and a conducting clinician. In 2014 a Percussion Clinic Room was added featuring two percussion clinicians. This year’s 8th Annual “Band Festival at the Kalahari” includes forty-six participating bands from four states, three percussion clinicians, and the addition of a graduate-level course available for directors.

The 9th Annual Band Festival at the Kalahari will take place on April 21-22, 2016. For more information, please visit http://www.spbb.org/band-festival-at-the-kalahari.html

Demand a Higher Standard

Introducing the NEW CSVR

The Yamaha Custom CSVR clarinets are the result of years of development dedicated to a clearly focused concept: crafting a Custom clarinet that has a beautiful sound, consistent quality, and an affordable price. Both student and professional clarinetists require a rich sound and comfortable playability. These qualities were combined with the high level of consistency that only Yamaha can provide, allowing clarinetists to demand a higher standard than ever before.

- Redesigned keys offer comfortable, ergonomic hand placement. In addition, the new keys have thicker silver-plating for a dark and resonant sound quality.

- Durable leather pads ensure a precise seal between pad and tone hole for ease of response throughout the entire range of the clarinet.

- A new Custom barrel design provides the CSVR with a well-balanced response and rich, warm tonal colors that will elevate the progressing clarinetist’s playing.
